Product Overview

High-Reliability 3-Pole HVAC&R Contactor

This SA Series 3-pole contactor is engineered for robust performance in HVAC and refrigeration applications. Rated for 30A, it is designed to manage high electrical loads while ensuring reliable circuit switching. With extensive manufacturing experience, this component is built to withstand demanding operating environments with a proven long service life.

Technical Specifications

Rated Current	30 A
Number of Poles	3
Voltage Rating	24V-480V
Phase	3

Operational Life

Operational Longevity

250000 times

Resistance Load Cycles

100000 times

Horsepower Load Cycles

1000000 times

Mechanical Cycles

Compliance and Logistics

Certifications	CE
Place of Origin	China
Monthly Supply Ability	300,000 pieces
