Overview

Specializing in production of buttons and indicators since 1997

The 3-position selector switch featuring a robust design and clear LED status indication.

Industrial Control Selector Switch

This 3-position selector switch is engineered for reliable performance in industrial control circuits. Constructed with a durable zinc alloy and high-grade anti-flame plastic body, it is designed to withstand harsh environments while providing precise control. The unit includes an integrated 120V LED indicator for clear status visualization and utilizes a spring-return mechanism for consistent, responsive operation.

Electrical Ratings

Rated Insulation Voltage	600 V
Conventional Heating Current	10 A
Contact Resistance	d25h©
Insulation Resistance	e5M©
