

3-Ton Hydraulic Bottle Jack

This heavy-duty hydraulic bottle jack is designed for lifting vehicles and heavy loads. It features durable steel construction for strength and stability, making it suitable for automotive repair, construction, and industrial applications.

Overview

Heavy-Duty Lifting Performance

This 3-ton hydraulic bottle jack is engineered for demanding lifting tasks in automotive, construction, and industrial settings. Built with durable steel construction, it offers the strength and stability required for professional-grade reliability. The design includes precise control mechanisms and an integrated safety overload valve to ensure safe and efficient operation during heavy load lifting.
