Overview

High-Performance Counterbalance Forklift

The 3-Ton Internal Combustion Counterbalance Forklift Truck is designed for demanding industrial environments, offering a robust solution for material handling. Engineered with a focus on operator comfort and efficiency, it features a suspension cab to minimize vibration and advanced noise reduction technology. This unit delivers reliable performance with optimized visibility and responsive handling, making it an ideal choice for warehouses and manufacturing facilities.

Performance

Lifting Capacity

3 ton

Capacity

3000 kg

Capacity

Operational Efficiency

- Load sensing steering system for improved lifting speed
- Optimized heat dissipation via hot air anti-reflux device
- Suspension braking and small diameter steering wheel

Ergonomics & Design

Operator Comfort

- Suspension cab reduces vibration
- Fully enclosed dashboard and cab for noise reduction
- Enhanced operating space through steering unit repositioning

Visibility & Safety

Visibility & Safety

High-visibility mast, Optimized balance weight for rear view, Counterbalance stability design
