

3-Ton Steel Jack Stands (Pair)

These steel jack stands offer a 3-ton load capacity per stand, sold as a pair. Constructed from high-grade steel, they provide strength, durability, and secure height adjustment for automotive applications.

Overview

Professional 3-Ton Support Solution

These heavy-duty steel jack stands are engineered to provide secure vehicle support during maintenance, repair, or long-term storage. Featuring a robust welded steel base and a self-locking ratchet handle, they offer the stability and safety required for professional workshops and home garages alike. Designed for versatility, they are suitable for a wide range of vehicles including SUVs, light trucks, and small tractors.
