

3-Ton Wheel Loader for Material Handling

This 3-ton wheel loader is designed for material handling applications. Its powerful engine and hydraulic system provide exceptional performance and precise control.

Overview

High-Performance Material Handling

The SL30W wheel loader is a robust and versatile machine designed for demanding material handling applications. Featuring a powerful engine and a precise hydraulic system, it delivers exceptional performance and operational efficiency. The ergonomic cabin enhances operator comfort and safety, making it an ideal choice for construction, mining, and agricultural operations.
