

30-Pin iPhone Car Charger and Holder

This car accessory charges and holds older iPhone models. It connects via a cigarette lighter adapter and features an adjustable gooseneck.

Product Overview

Integrated Vehicle Charging and Mounting

This versatile car accessory combines a secure mobile phone mounting system with integrated charging capabilities. Specifically designed for older iPhone models, it features a reliable 30-pin connector for steady power delivery during transit. The flexible gooseneck and adjustable grip allow for optimal positioning, ensuring hands-free operation and improved driver safety.

Technical Specifications
