

30-Ton Hydraulic Bottle Jack

This hydraulic bottle jack is designed for lifting heavy loads up to 30 tons. It features a robust construction and a safety overload system.

Product Overview

Industrial Lifting Performance

This 30-ton hydraulic bottle jack is engineered for demanding lifting tasks in automotive, construction, and industrial environments. Featuring a robust, heavy-duty construction, it offers consistent reliability and durability under significant load. The unit is designed with a safety overload system to protect the mechanism and ensure operator safety during operation.

Technical Specifications

Lifting Capacity

30 ton

Maximum Load

Primary Applications

- Automotive maintenance
- Construction sites
- Industrial lifting

Safety Systems

Safety Overload System

Design Features

Design Advantages

Compact • Portable • Robust
