

30-Ton Hydraulic Bottle Jack

This heavy-duty hydraulic bottle jack is designed for lifting substantial loads. It is suitable for automotive, construction, and industrial applications, offering a stable and secure lifting platform.

Product Overview

Industrial Lifting Performance

This 30-ton hydraulic bottle jack is engineered for high-demand lifting tasks in automotive, construction, and industrial environments. Featuring robust construction, it provides a stable and secure platform for heavy loads while maintaining a compact, portable design. The integrated safety overload valve ensures controlled operation and protects the unit during intensive use.

Technical Specifications

Lifting Capacity

30 ton

Max Load Capacity

Suitable Industries

- Automotive
- Construction
- Industrial

Operating Characteristics

Smooth Operation • Controlled Lifting • Compact Design

Safety Features

Safety Overload Valve, Heavy-Duty Construction
