Product Overview

Professional 300L Micro Brewing Solution

This 300L micro beer brewing system offers a complete, compact solution designed for brewpubs, restaurants, and craft breweries. Constructed from high-quality SUS304 stainless steel or red copper, the system ensures durability, hygiene, and consistent beer quality. The modular design integrates all essential brewing stages, from milling and saccharification to fermentation, refrigeration, and sterilization, making it an ideal choice for small-scale, high-quality production.

Technical Specifications

Capacity

300 L

Tank Capacity

Material Construction

SUS304 Stainless Steel, Red Copper

System Components

Included Systems

- Milling system
- Saccharification system
- Fermentation system
- Refrigeration system
- Washing and sterilization system
- Control system

Logistics

Place of Origin	Shandong, China
Delivery Time	35 days within order
Packaging	Wooden case or other
