

300mm F-Clamp with 50mm Jaw Depth

This F-clamp has a 300mm length and a 50mm jaw depth. It is suitable for clamping applications in woodworking, metalworking, and DIY projects.

Product Overview

Versatile Clamping Performance

This 300mm F-Clamp with 50mm jaw depth is a professional-grade hand tool designed for secure and stable workholding. Featuring durable cast iron jaws and an anti-slip grip, it provides reliable performance for woodworking, metalworking, and general assembly tasks. The inclusion of soft jaw guards ensures that delicate work surfaces remain protected during heavy-duty clamping.
