

300mm Welded Ceramic Tile Saw Blade

This blade is used for cutting hard ceramic tiles, including polishing, rustic, crystal, and glazed varieties. It offers high sharpness, eliminates chipping, and ensures a smooth cut with long-lasting performance.

Product Overview

High-Performance Ceramic Cutting

This 300mm welded saw blade is engineered for precision cutting of high-hardness ceramic materials, including polished, rustic, and glazed tiles. Designed for long-lasting performance and smooth, chip-free finishes, it is an ideal solution for intricate tasks like mosaic cutting and edge trimming. Compatible with a variety of manual and automatic industrial cutting machines, this blade delivers consistent results for demanding professional environments.

Technical Specifications

Blade Dimensions

305 mm

Diameter

60 mm

Bore Size

2.2 mm

Thickness

Tooth Configuration

21 T

Compatibility & Usage

Compatible Machinery

- Manual cutting machines
- Automatic cutting machines
- Single-head industrial machines
- Multi-head industrial machines

Suitable Materials

Polished tiles, Rustic tiles, Crystal tiles, Glazed tiles, Vitrified tiles, Wall tiles, Floor tiles

Safety & Warnings

Safety Instructions

- Always wear ANSI-compliant eye protection
- Do not operate without a proper working guard
- Inspect for cracks or loose tips before use
- Never use on metal materials
- Ensure saw RPM does not exceed blade rating
