

30A Molded Case Circuit Breaker

This molded case circuit breaker is designed for overcurrent protection in electrical distribution systems. It features a thermal-magnetic trip mechanism for overload and short-circuit protection.

Product Overview

Reliable Circuit Protection

This Molded Case Circuit Breaker (MCCB) is engineered for robust overcurrent protection in demanding electrical distribution systems. Featuring advanced thermal-magnetic trip technology, it ensures dependable performance for both overload and short-circuit scenarios. Designed for versatility, this unit is suitable for a wide range of residential, commercial, and industrial electrical applications.

Technical Specifications

Rated Current

30 A

Rated Current

Voltage Rating

400V / 120-240VAC

Trip Mechanism

Thermal-Magnetic

Configuration

Available Pole Configurations

- Single-pole
- Double-pole
- Three-pole

Safety & Operation

Overload Protection, Short-Circuit Protection, Common Trip Mechanism, ON/OFF Indication

Applications

Suitable Environments

Residential • Commercial • Industrial • Panelboard Mounting
