

30A RV Power Outlet Box with NEMA 14-30R Receptacle

This 30A RV outlet panel features a NEMA 14-30R receptacle. The weatherproof enclosure is designed for safe and reliable outdoor power connections for recreational vehicles.

Product Overview

Reliable Outdoor Power Solution

This 30A RV power outlet box is engineered for safety and durability in outdoor environments. Featuring a weather-resistant, anti-corrosion, and anti-fading construction, it is built to withstand sun, rain, and snow. The enclosure includes a lockable door with a specialized bulge design, allowing you to keep the unit securely closed even while a plug is in use.
