Overview

Advanced HEPA filter technology with automatic cleaning for consistent performance.

Professional Wet & Dry Cleaning Solution

This 30L vacuum cleaner is a high-performance tool designed for both wet and dry cleaning applications. Featuring an advanced automatic HEPA filter cleaning system, it ensures consistent suction power and reduced maintenance, making it ideal for industrial and commercial environments. Built with a robust PP tank and a powerful 1400W motor, this unit is engineered for durability and reliability in demanding working conditions.

Performance & Technical

Designed for industrial and commercial use with powerful suction.

High-performance motor and efficient filtration system.

Rated Power	1400 W
Vacuum Ability	20 Kpa
Tank Capacity	30 L
Voltage/Frequency	220-240V/110-120V; 50-60HZ

Features & Design

Ergonomic design for easy maneuverability and storage.

Key Features

- Automatic HEPA filter cleaning system
- Wet and dry cleaning capability
- Automatic synchronization socket for power tools
- Professional 2-fan copper motor
- Impact-resistant PP tank
- Large rear and front wheels for stability

Certifications

GS • CE • EMC • ROHS • UL
