

30m Open Reel Steel Measuring Tape

This 30m measuring tape features an open reel design and a 3X fast winding mechanism. Its steel tape ensures accurate measurements for construction, surveying, and other long-distance applications.

Product Overview

Professional Grade Measuring Solution

This 30-meter open reel measuring tape is engineered for efficiency and durability in demanding work environments. Featuring a 3X fast-retract mechanism, it significantly reduces downtime during long-distance measurements. The robust construction combines a high-carbon steel blade with an impact-resistant ABS and TPR housing, ensuring reliability for construction and surveying tasks.

Technical Specifications

Tape Length

30 m Length

Tape Width

12.5 mm

Measurement Systems

Metric, Inch

Construction & Materials

Housing Material

ABS + TPR

Blade Material

High-carbon steel

Features

Retraction Mechanism

3X Fast Retract

Reel Type

Open Reel
