

32-Ton Hydraulic Bottle Jack

This hydraulic bottle jack is designed for lifting heavy loads in industrial and automotive applications. It features robust construction for durability and provides a reliable and safe lifting solution with a slow, controlled descent.

Overview

Industrial Lifting Solution

This 32-ton hydraulic bottle jack is engineered for demanding industrial and automotive applications. It provides a robust, stable lifting platform suitable for heavy-duty environments like workshops, garages, and construction sites. The unit is designed for safety and reliability, ensuring controlled movement when lifting and descending heavy loads.

Performance Specifications

Rated Lifting Capacity

32 Ton
Capacity

Safety & Usage

Operational Safety Protocols

- Do not exceed rated load capacity
- Always use on firm, level surfaces
- Never work under load without additional support devices

Usage

Primary Applications

Automotive, Industrial, Construction
