

34-Bottle Dual Zone Wine Cooler

This dual-zone wine cooler features soft touch controls with an electrical display and a no-frost cooling system. It holds up to 34 bottles and has slide-out wooden shelves.

Product Overview

Professional Dual Zone Cooling

This 34-bottle dual-zone wine cooler provides the perfect environment for preserving both red and white wines simultaneously. Designed with digital precision, the independent temperature zones allow for customizable storage conditions tailored to specific varietals. Its sleek aesthetic, highlighted by integrated LED lighting and premium wooden shelving, makes it an ideal choice for both professional bar settings and residential wine collections.
