

3/4 Ton Lever Hoist

This robust lever hoist is designed for industrial and construction applications. With a 3/4 ton lifting capacity, it provides a safe and efficient solution for raising and lowering heavy loads.

Product Overview

Professional Lever Hoist Performance

The Series HSH 616 lever hoist features an innovative inner gear design that ensures high efficiency and precise load control. Engineered for versatility, it allows for easy manual chain adjustment under no-load conditions and facilitates operation at any angle. Built from high-strength alloy steel, this tool is ideal for demanding industrial applications including shipbuilding, power plants, and construction.
