

3400W Electromagnetic Cooktop with Three Cooking Zones

This electromagnetic cooktop has a power of 3400W. The device size is 485X510X65 mm.

Overview

High-Efficiency Electromagnetic Cooktop

This sleek, modern electromagnetic furnace is designed for optimal heat distribution and energy conservation in professional or contemporary kitchen environments. Featuring a durable black glass surface and three distinct cooking zones, it offers precise temperature and power control for consistent cooking results. Its efficient design minimizes energy consumption while maximizing ease of use, making it a reliable solution for high-performance cooking needs.

Technical Specifications

Total Power Output

3400 W

Total Power

Cooking Zones

3 zones

Design & Features

Surface Material

Black Glass

Control Interface

Front-mounted touch control panel

Key Benefits

Energy Efficient, Precise Temperature Control, Consistent Heat Distribution, Modern Design
