

350mm Hand Trowel for Gardening

This 350mm hand trowel is designed for various gardening tasks, including planting and transplanting. It features a sturdy metal blade with depth markings and an ergonomic handle.

Product Overview

Professional Grade Hand Trowel

This 350mm hand trowel is engineered for durability and precision in gardening tasks like planting, transplanting, and weeding. It features a high-quality carbon steel blade that has undergone heat treatment for enhanced strength and longevity. The ergonomic PP and TPR plastic handle ensures a comfortable grip, significantly reducing hand fatigue during extended use.
