Product Overview

Efficient and Healthy Cooking

This 3.5L electric air fryer is designed for fast and efficient food preparation, utilizing a rapid hot air circulation system to deliver crispy results with minimal oil. Featuring a powerful 1500W motor and an intuitive LED display, it offers versatile cooking options including frying, roasting, baking, and grilling. Its compact size and non-stick basket make it an ideal addition to any commercial or home kitchen looking for a healthy alternative to traditional frying.
