Product Overview

Professional Audio Connectivity

The EA-C-024 3.5mm mono plug is engineered for reliable signal transmission in professional audio applications. Featuring a robust construction with a combination of ABS and zinc alloy, this connector ensures durability and effective insulation. The integrated cable protector is specifically designed to minimize strain, preventing damage from bending or pulling during daily use.

Technical Specifications

Color

Black

Model Number

EA-C-024

Connector Type

3.5mm Mono Plug

Material

ABS, Zinc Alloy

Design Features

Key Features

- Integrated cable protector (strain relief)
- Solder-type connection
- Durable housing design
- Reliable signal transfer
