

3.5T Hydraulic Scissor Car Lift

This hydraulic scissor car lift has a lifting capacity of 3.5 tons. It is designed for vehicle maintenance and repair, offering a stable, elevated platform.

Product Overview

Professional 3.5T Hydraulic Scissor Lift

This robust 3.5T hydraulic scissor car lift is an essential tool for professional vehicle maintenance and repair shops. Designed for durability and performance, it provides a highly stable elevated platform, allowing mechanics to work safely and efficiently under vehicles. Equipped with integrated safety mechanisms and a user-friendly control panel, this lift is engineered to support demanding automotive service environments.

Technical Specifications

Lifting Capacity

3.5 T

Max Load

Key Design Features

Hydraulic System, Scissor Design, Stable Platform, Robust Construction

Operational Safety

Control & Safety

- Integrated control panel for raising and lowering
- Enhanced safety mechanisms
- Engineered for heavy-duty repair tasks
