

360-Degree Surveillance Camera

This panoramic camera provides a wide field of view, capturing a larger area than standard cameras. The spherical design facilitates 360-degree monitoring, ideal for surveillance and security.

Overview

Panoramic Surveillance Solution

This 3MP panoramic camera delivers a comprehensive 360-degree field of view, providing immersive, three-dimensional monitoring for enhanced security. Designed for versatility, it features intelligent motion detection, two-way audio communication, and flexible installation options including ceiling or wall mounting. With support for both cloud and local storage, as well as remote viewing capabilities, it offers a robust and convenient surveillance solution for various environments.

Technical Specifications

Imaging Technology

Feature	Specification
Sensor	1/2.4" CMOS
Lens Type	Fisheye
Noise Reduction	3D Digital
Dynamic Range	Digital WDR
Day-Night Mode	Infrared filter

Connectivity & Smart Features

- Wi-Fi connection with QR code setup
- Hotspot connection for offline viewing
- Remote monitoring via mobile and PC
- Intelligent motion detection
- Alarm notification push

Installation & Design

Installation Options	Ceiling Mount, Wall Mount, Magnetic Base
Power Input	DC 5V/1A (USB)

Storage & Audio

Storage Options

Cloud Storage • Micro SD Card (Max 128G)

Audio System

Yes

Environmental

Operating Environment

-20 to 50 , Humidity <95% (non-condensing)
