

3.6V 5300mAh Lithium-Ion Replacement Battery

Rechargeable Li-ion battery designed as a replacement part for compatible devices. It features a 3.6V, 5300mAh capacity providing 19.08Wh of power.

Product Overview

High-Performance Lithium-Ion Replacement

This rechargeable lithium-ion battery is designed as a direct replacement part for compatible 18V power tool systems. Featuring a high-capacity 5300mAh core, it provides consistent power output of 19.08Wh for extended operational use. Engineered for reliability, this imported cell component meets standard safety requirements for professional power tool maintenance.

Technical Specifications

Energy Output

19.08 Wh
Total Energy

Rated Voltage	3.6 V
Capacity	5300 mAh

Compatibility & Safety

Certifications

CE

Handling Precautions

- Charge only with designated speedcharger
- Do not disassemble
- Do not dispose of in fire
- Do not attempt to modify

Compatible Model Number	4446040
-------------------------	---------

Origin

Country of Origin	China
