Overview

Professional LED Batten Lighting

This 4-foot LED batten light provides efficient, high-output illumination designed for modern office, commercial, and industrial environments. Featuring a slim, minimalist design, it serves as an ideal replacement for traditional T5 and T8 fluorescent lamps, offering superior brightness and energy savings. The unit is engineered for flexibility, supporting both surface and suspended mounting, and is built with a durable metal base and non-flammable diffuser for long-term reliability.

Technical Specifications

Rated Power	36 W
Luminous Flux	3800 lm
Color Temperature	6500K (Cool White)
Length	1200 mm
Color Rendering Index (Ra)	80

Performance & Efficiency

Luminous Efficacy

120 lm/W
Efficiency

0.9 >
Power Factor

Working Temperature	-40°C to 50°C
