

# 3.7V Lithium-Ion Battery for Power Tools

This high-rate lithium-ion battery is designed for power tools and vacuum cleaners. It features a 3.7V nominal voltage and utilizes NMC cathode materials.

## ADDITIONAL IMAGES

## Product Overview

### High-Performance Lithium-Ion Power

This 3.7V lithium-ion rechargeable battery is engineered for demanding applications, including power tools, laptops, and various portable electronic devices. Featuring the standard 18650 form factor, it offers a balance of high energy density and reliable cycle life. Its robust construction ensures consistent performance for professional and industrial use cases.

## Technical Specifications

### Available Capacities

- 1.5Ah
- 2.0Ah
- 2.2Ah

Nominal Voltage	3.7 V
Form Factor	18650

## Key Metrics

### Performance Highlights

<b>3.7 V</b> Voltage	<b>2.2 Ah</b> Max Capacity
