Overview

High-Performance 3.8 Ton Wheel Loader

This 3.8-ton wheel loader is engineered for demanding earth-moving and construction environments, offering a robust frame capable of handling heavy vertical and horizontal loads. Designed for versatility and operator comfort, it features an ergonomic pilot joystick control system, a vibration-absorbing cabin, and panoramic visibility. With a quick-hitch system for rapid attachment changes, this machine ensures maximum productivity across various job sites.

Performance

Rated Capacity

3.8 Ton

Load Capacity

Engine Compatibility

Diesel Engine, High-Efficiency

Operator Experience

Cabin Comfort & Safety

- Vibration absorbing seat to reduce fatigue
- Panoramic floor-to-ceiling tinted glass
- Large resistance steps for easy access
- Rear-view safety camera with color screen

Control & Operation

Control System	Ergonomic pilot joystick for steering and loader control
Attachment System	Yes
Quick Hitch Capability	Hydraulic quick-hitch system allows for attachment changes in seconds without leaving the cab.

Construction

Frame Design	Specialized frame designed for heavy vertical and horizontal loads in challenging conditions.
