Product Overview

High-Efficiency Solar Solution

This 380W monocrystalline solar panel is engineered for optimal energy conversion and long-term reliability. Featuring a 72-cell configuration, it is designed to meet the demands of residential, commercial, and industrial solar energy systems. With a robust 25-year performance guarantee, this module provides a dependable power output for sustainable energy projects.

Technical Specifications

Rated Power

380 W

Power Output

Cell Configuration	72 cells
Cell Technology	Monocrystalline

Reliability & Warranty

Performance Guarantee	25 years
-----------------------	----------

Application

Ideal Applications	Residential, Commercial, Industrial
--------------------	-------------------------------------
