Product Overview

High-Performance 3C2V Coaxial Cable

This 3C2V coaxial cable is engineered for reliable signal transmission in CCTV and CATV applications. It features a precision-engineered inner conductor and robust shielding to ensure excellent signal integrity and minimal loss. Designed for versatility, the cable construction can be adjusted to meet specific project requirements, making it an ideal choice for professional AV installations.

Technical Specifications

Inner Conductor Diameter	0.5 mm
Conductor Material	BC, CCS
Dielectric Diameter	2.5 mm
Dielectric Material	Foam PE
Outer Conductor Diameter	2.74 mm
Outer Conductor Construction	128 x 0.12 mm AL-Me wire
Outer Jacket Diameter	5 mm
Outer Jacket Material	PVC (BLACK/WHITE)

Logistics & Packing

Packing Options

- Ring
- Wooden drum/pallet
- Plastic spool

Available Packing Lengths	0.1m - 100m
