Overview

Professional 3D Green Beam Laser Level

This self-leveling cross-line laser is an essential tool for precision layout, framing, flooring, and installation tasks. Featuring advanced green beam technology, it offers 400% greater visibility than traditional red lasers, ensuring accuracy even in brightly lit environments. With a 360-degree horizontal line and a vertical plumb line, it provides comprehensive coverage for complex job site requirements.

Laser Performance

Visibility Technology

Green Beam • 400% More Visible

Operating Modes

- 360-degree Horizontal Level
- Vertical Plumb Line
- Manual Mode (for angled lines)

Laser Class	Class 2
Power Output	1 mW

Power & Efficiency

Battery Capacity	2000 mAh
Charging Interface	Universal Type-C
Adjustable Brightness	50%, 60%, 80%, 100%
Energy Saving Mode	Yes

Physical Specifications

Included Accessories

- Magnetic target
- Magnetic bracket
- Tinted glasses

Tripod Thread	1/4"-20

Applications

Ideal Applications	Layout, Piping, Post installation, Framing, Flooring
