

3D Split-Type Car Mat Set

This 3D split-type car mat set is designed for a perfect fit and superior protection. Constructed from PVC+XPE material using a hot pressing process, it offers waterproof and antifouling properties, along with fire-retardant and anti-skid bottom features.

Product Overview

Premium 3D Split-Type Car Mats

These 3D split-type car mats are engineered for a precise, custom fit and superior interior protection. Constructed from high-quality PVC and XPE materials using an advanced hot-pressing process, they offer durable waterproof and antifouling capabilities. The innovative 3-in-1 split-type design ensures a comfortable, sand-proof experience while maintaining safety with fire-retardant properties and an anti-skid bottom.
