

3G Fixed Wireless Terminal

This 3G fixed wireless terminal delivers reliable voice communication through a wireless cellular network. It features a user-friendly interface with a backlit LCD screen and supports standard telephony functions.

Product Overview

Reliable Cellular Communication

The 3G Fixed Wireless Terminal offers a dependable voice communication solution, ideal for areas with limited landline infrastructure. It combines the convenience of a traditional desktop phone with the flexibility of a 3G cellular network. Designed for ease of use, it features a clear backlit display and intuitive navigation for essential telephony tasks.
