

3HP Cassette Type Air Conditioning Unit

This ceiling-mounted cassette type air conditioning unit provides efficient cooling for residential or commercial spaces. The system includes an indoor unit with a square grille for even air distribution and a compact outdoor compressor unit.

Product Overview

High-Efficiency 3HP Cassette Air Conditioning

This 3HP cassette type air conditioning unit is engineered for superior climate control in both residential and commercial environments. The system features a ceiling-mounted indoor unit with a square grille design for balanced, 360-degree air distribution. Accompanied by a durable, weather-resistant outdoor compressor, this unit provides a complete cooling solution that integrates seamlessly into modern interiors.
