

3kW Portable Gasoline Generator

This 3kW gasoline generator delivers reliable power for various applications. Its robust frame ensures durability and easy transport, while the AVR (Automatic Voltage Regulator) provides stable voltage output.

Overview

Reliable Portable Power Solution

The BS3500 is a versatile 3kW gasoline generator designed to provide stable and reliable power for construction sites, camping, and emergency backup. Featuring a robust protective frame and a high-performance 212cc OHV engine, it ensures durability and easy transport. With integrated safety features like an Automatic Voltage Regulator (AVR) and circuit protection, it delivers consistent performance for various professional and domestic applications.

Performance Metrics

Key Performance Metrics

3 kW

Maximum Power

9 h

Continuous Run Time

212 cc

Displacement

Electrical Specifications

Rated Voltage	110/220V
Rated Current	12.7 A
Frequency	50/60Hz
Engine Speed	3000-3600rpm

Engine & Fuel

Engine Configuration

- Single cylinder
- Four-stroke
- Forced air cooling
- Overhead Valve (OHV)

Starting System	Recoil / Electric Start
-----------------	-------------------------

Fuel Tank Capacity	15 L
--------------------	------

Oil Capacity	0.6 L
--------------	-------

Control & Safety

Integrated Features

AVR (Automatic Voltage Regulator) • Circuit Breaker • Volt Meter • Grounding Terminal

Physical Properties

Dimensions (L*W*H)	605 x 450 x 470 mm
--------------------	--------------------

Weight (NW/GW)	45 / 46 kg
----------------	------------

Compliance

Certifications	CE, Euro-V
----------------	------------
