

3kW Portable Inverter Generator

This portable inverter generator delivers 3000 running watts of power. It features inverter technology for a stable and clean sine wave output, suitable for sensitive electronics.

Overview

Reliable Portable Power Solution

This 3kW portable inverter generator is designed to provide clean, stable power for sensitive electronics such as computers and communications equipment. Utilizing advanced IGBT control modules and inverter technology, it ensures a pure sine wave output that protects your devices from voltage fluctuations. Its compact design, featuring integrated wheels and a handle, makes it an ideal choice for mobile applications, emergency backup, and quiet operation environments.

Power Performance

Performance Ratings

3000 W

Running Watts

3500 W

Starting Watts

5 h

Continuous Work Time

Technical Features

Control System

- Advanced IGBT control modules
- Auto-Voltage controller
- Frequency and voltage stabilization
- Pure sine wave output

Noise Level

96 dBA(4M)

Applications & Versatility

Recommended Applications

Computers, Communications Equipment, Sensitive Electronics, Instruments, Camping, Emergency Backup

Parallel Connection

Yes

Compliance & Quality

Standards & Certifications

CE • GS • EMC • Noise EU-V

Manufacturing Details

Lead Time

35 days for container and sample orders

Available Services

OEM, ODM
