Overview

High-Performance Lifting Solution

This 3-ton endless polyester round sling is engineered for demanding industrial lifting applications, offering a generous 10-meter length for versatile rigging. Constructed from 100% high-tenacity polyester, it provides exceptional durability and abrasion resistance while maintaining a lightweight profile. With a 6:1 safety factor and compliance with EN1492 standards, it ensures reliable performance and operator safety across various load configurations.

Technical Specifications

Material	100% high tenacity polyester
Length	10 m
Approximate Width	40-1050mm
Color	Yellow

Compliance & Standards

Standard Compliance

EN1492 • CE • GS • TÜV Rheinland Certified

Design Features

Key Features

- Endless design for even load distribution
- High-strength fiber construction
- Excellent abrasion resistance
- Minimized wear on contact points
- Versatile rigging applications
