

3W 12V LED Lamp with Heat Sink

This high-intensity LED lamp is designed for focused illumination, operating at 12V and consuming 3W. It features a heat sink for efficient thermal management, ensuring a long lifespan and consistent performance.

Product Overview

High-Intensity LED Illumination

This high-intensity LED lamp is engineered for focused illumination, making it a reliable solution for diverse lighting applications requiring directional output. Operating at 12V with a low power consumption of 3W, it provides an energy-efficient alternative to traditional lighting. The design incorporates a robust heat sink for superior thermal management, ensuring consistent performance and an extended operational lifespan.

Technical Specifications

Power Consumption	3 W
Operating Voltage	12 V
Thermal Management	Integrated Heat Sink
Configuration	Circular LED Emitter Array

Key Features

Performance Highlights

3 W Power Rating	12 V Voltage
----------------------------	------------------------

Ideal Applications	Focused Illumination, Energy Efficient, Directional Lighting
