

# 3W Ultraviolet Germicidal Bulb with E14/E17 Base

This ultraviolet germicidal bulb emits UV-C radiation for sterilization and disinfection. It features a compact design and an E14 or E17 Edison screw base.

## ADDITIONAL IMAGES

## Product Overview

### Compact UV-C Germicidal Solution

This 3W ultraviolet germicidal bulb is engineered for high-intensity sterilization in compact environments. Featuring an E14/E17 base, it offers straightforward installation and reliable performance with a long switching life. It is an ideal choice for integrating into air purifiers, humidifiers, and small-scale disinfection appliances.

## Technical Specifications

### Rated Power

**3 W**

Power Rating

### Ozone Selection

- Ozone version
- Non-ozone version

### Base Type

E14, E17

## Features

### Performance Capabilities

- High radiation intensity
- Low-voltage DC power supply
- Long switching lifecycle (tens of thousands of times)
- Compact design for small-volume appliances

## Applications

### Typical Applications

Air purifiers, Air deodorant, Refrigerators, Humidifiers, Dental sterilizers
