

4-Cylinder Diesel Engine with Clutch and Pulley

This 4-cylinder diesel engine features a clutch and pulley system. It is designed for use in cement trucks and pumping applications.

ADDITIONAL IMAGES

Product Overview

Complete engine assembly featuring a radiator cooling system and integrated control panel for monitoring vitals.

High-Performance Industrial Diesel Engine

The 4102G and 4102ZG series are robust 4-cylinder diesel engines engineered for demanding industrial applications such as cement trucks and high-pressure pumps. These engines feature a integrated clutch and pulley system for efficient power transmission and are designed for long-term durability under heavy loads. With a focus on reliability and easy maintenance, they provide a dependable power source for both mobile and stationary machinery.

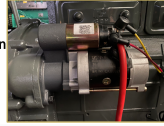

Technical Specifications

WFHUAZHONG®

High pressure Injection pump

Planetary reduction Starter

Detailed view of the high-pressure injection pump and planetary reduction starter system.

Engine Configuration

- 4-Cylinder Inline
- Direct Fuel Injection
- Water-Cooled System
- Mechanical Governor Control

Power Output

50 HP

Minimum Power

70 HP

Maximum Power

Displacement

3.4 L

Electrical System

12V, 24V

Key Features

WFHUAZHONG®

Clutch with pulley

Radiator with protect net

The integrated clutch and pulley system designed for efficient power transfer to external machinery.

Transmission Components

- Clutch System
- Pulley Drive
- Planetary Reduction Starter

Cooling & Protection

- Radiator with Protective Net
- High-Efficiency Cooling Fan
- Cylindrical Air Filter

Monitoring & Control

Integrated Gauges

Oil Pressure • Oil Temperature • Water Temperature • Voltage • Tachometer • Hour Meter

Applications

Primary Applications

Cement Trucks, Industrial Pumps, Agricultural Irrigation, Air Compressors, Dust Transport, Wood Grinders

Logistics

WFHUAZHONG®

PACKING

Engines are securely packed to ensure safe transit during international shipping.

Payment Options

T/T (30/70), L/C at sight, PayPal, Western Union
