

4-Gang Waterproof Rocker Switch Panel with USB Charger

This waterproof rocker switch panel features four ON-OFF switches with blue LED indicators. It also includes a 5V/2.1A and a 5V/1A car charger socket.

ADDITIONAL IMAGES

Overview

A versatile range of configurations available for different automotive and marine power management needs.

Versatile 4-Gang Marine Control Panel

This waterproof rocker switch panel is a comprehensive power management solution designed for demanding marine and automotive environments. It features four illuminated ON-OFF switches, dual USB charging ports, a digital voltmeter, and a 12V power socket, all mounted on a durable aluminum plate. Ideal for boats, RVs, and off-road vehicles, it provides centralized control for lighting and accessories while monitoring your battery's health in real-time.

Electrical Performance

Key Electrical Ratings

12 V Input Voltage (Min)	24 V Input Voltage (Max)	20 A Max Current @ 12V	10 A Max Current @ 24V

Compliance

CE

Charging & Monitoring

The integrated digital voltmeter and dual USB ports (2.1A and 1A) provide essential monitoring and charging capabilities.

USB Charger Specifications

- Port 1: 5V / 2.1A High-speed charging
- Port 2: 5V / 1A Standard charging
- Integrated Digital Voltmeter for real-time battery monitoring
- DC Power Socket with protective cap

Construction & Durability

Constructed with durable ABS and aluminum to withstand harsh marine and off-road environments.

Materials

Aluminium, ABS Plastic, Metal

Working Temperature Range

-25°C to 80°C

Switch Configuration

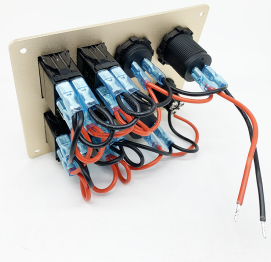

Four illuminated SPST ON-OFF switches mounted on a heavy-duty aluminum plate.

Switch Details

Feature	Specification
Function	SPST ON-OFF
Pin Count	5-Pin
Mechanical Life	50,000 Cycles
Illumination	Blue LED

Application & Safety

Pre-wired design with insulated connectors and integrated fuses ensures a safe and straightforward installation.

Safety Protections

- Over-heating protection
- Over-current protection
- Over-charging protection
- Short circuit protection
- Replaceable integrated fuses

Universal Compatibility

Marine/Boat • RV/Trailer • Truck/Bus • Jeep/Off-road • Motorcycle
