Product Overview

High-Efficiency Deep Well Submersible Pump

This 4-inch deep well submersible pump is engineered for reliable water extraction from clean sources, free from solid or abrasive substances. Featuring a durable construction with 100% copper wiring and cold-rolled silicon steel sheets, it ensures consistent performance and longevity. The unit is designed for versatility, making it suitable for domestic water supply, irrigation, and various industrial applications.

Technical Specifications

Degree of Protection

IP68

Pump Diameter	4 inch
Outlet Size	1 1/4 inch
Speed	2900 rpm
Fluid Temperature Range	0 - 40°C
Insulation Class	B

Key Features

Construction Highlights

- 100% copper wire with automatic wiring
- Cold-rolled silicon steel sheet with high-speed punching
- High-quality mechanical seal to prevent leakage

Compliance & Market

Primary Markets

- Bangladesh
- Europe
- Africa
- Middle East

Certifications

CE, RoHS, ISO9001, ISO14001, OHSAS18001
