

# 4-Inch Diesel Water Pump

This 4-inch diesel water pump is designed for high-volume water transfer. Its durable construction and powerful engine ensure reliable performance in demanding environments.

## ADDITIONAL IMAGES

## Overview

### High-Volume Diesel Water Pump

This 4-inch diesel water pump is a self-priming centrifugal solution engineered for high-volume water transfer. Powered by a single-cylinder, air-cooled, 4-stroke diesel engine, it is designed for demanding agricultural and industrial environments. With its durable cast iron impeller and sturdy steel frame, this unit ensures reliable performance for irrigation, drainage, and general water management tasks.

## Performance Metrics

### Max Flow Rate

**60 m<sup>3</sup>/h**  
Flow Rate

### Max Head

**30 m**  
Max Head

## Engine Specifications

Engine Type	Single-cylinder, air-cooled, 4-stroke diesel
Fuel Tank Capacity	3.6 L
Starter Type	Recoil starter

## Technical Details

Inlet/Outlet Size	4 inches
Pump Type	Self-priming centrifugal
Construction Materials	Cast iron impeller, Cast iron volute, Steel frame

## Applications

### Common Applications

- Agricultural irrigation
- Water drainage
- General water management
- Dewatering
