Product Overview

Professional Utility Castor

This 4-inch utility wheel is engineered for durability and reliable performance in demanding commercial environments. Constructed with a high-quality PP hub and wear-resistant polyurethane tread, it ensures smooth operation for various transport solutions. The integrated heavy-duty braking system provides secure positioning, making it an ideal choice for supermarket trolleys, flatbed carts, and medium-sized tool carriers.

Technical Specifications

Maximum Load Capacity

150 KG
Max Load

Colors

Black • Grey

Wheel Diameter

4 inch

Construction Materials

Polyurethane, Polypropylene (PP), Metal

Features and Application

Key Features

- Wear-resistant tread
- Integrated foot-operated brake
- High load-bearing capacity
- Universal mounting compatibility

Recommended Use

- Supermarket trolleys
- Flatbed utility carts
- Medium-duty tool cars
