Product Overview

Reliable HVAC Control

This 4-pole magnetic AC contactor is specifically engineered for definite purpose applications in HVAC and refrigeration systems. Designed for demanding environments, it ensures consistent motor control and power switching performance. With a robust construction, this component is built for long-term reliability in air conditioning and heating installations.

Technical Specifications

Rated Current

75 A

Rated Current

Certifications

UME Certified

Pole Configuration

4-Pole

Terminal Torque

50 lb-in

Wire Compatibility

C60/75

Service & Logistics

Ordering & Support

Policy	Details
Samples	Available for testing
Customization	OEM and ODM available
Quality Assurance	100% self-inspection before packing
Warranty	Replacement for quality issues

Payment Terms

- 30% deposit
- Balance against B/L copy

Lead Time

15-20 days after deposit
