Overview

Compact Power for Modern Gardening

The XG335S is a lightweight, 4-stroke mini tiller engineered to replace outdated, high-vibration models with superior efficiency and comfort. Designed for home gardens and small agricultural plots, it features an easy-start engine and ergonomic handling to reduce operator fatigue. Its robust design allows for effective soil aeration and cultivation, making it an essential tool for maintaining healthy planting beds.

Technical Specifications

Power Output

0.7 kW

Power

0.95 hp

Power

Engine Displacement

33.5 cc

Net Weight

11.5 kg

Design & Ergonomics

Ergonomic Advantages

- 110° handle angle for reduced fatigue
- Easy-start buffering torsion spring
- Plum-shaped locking knobs for easy operation
- Integrated frame support for convenient storage

Handle Angle

110 degrees

Performance

Key Benefits

Low Vibration • Low Emission • Easy Start • Hard Soil Capable

Engine Type

4-Stroke
