

4-Stroke Multifunction Garden Tool with Attachments

This multifunction tool provides versatile solutions for garden maintenance. It includes attachments for chainsaw pruning, hedge trimming, brush cutting with a blade, and grass trimming with a nylon line head.

Overview

Versatile Garden Maintenance Solution

This 4-stroke multifunction garden tool is designed to handle a wide range of landscaping tasks with a single power unit. By utilizing interchangeable attachments, users can seamlessly switch between pole sawing, hedge trimming, brush cutting, and grass trimming. Its reliable 33.5cc 4-stroke engine ensures consistent performance and efficiency for professional and heavy-duty residential garden maintenance.
