

4-Ton Wheel Loader

This 4-ton wheel loader is designed for efficient material handling in construction and agriculture. Its hydraulic system allows for precise control, while the operator cabin is designed for comfort.

ADDITIONAL IMAGES

Overview

High-Performance 4-Ton Wheel Loader

This robust 4-ton wheel loader is engineered for demanding material handling tasks in construction, agriculture, and industrial environments. Featuring a vibration-absorbing cabin with panoramic visibility and ergonomic pilot joystick controls, it is designed to maximize operator comfort and productivity. The machine incorporates a heavy-duty frame capable of handling significant vertical and horizontal loads, ensuring reliability in challenging working conditions.

Performance & Capability

Operational Highlights

4 ton

Load Capacity

Rated Load Capacity

4 ton

Key Features

Pilot Joystick Control, Quick Hitch System, Rear-View Camera, Vibration-Absorbing Seat

Operator Environment

Cabin Comfort & Safety

- Vibration-absorbing seat to reduce fatigue
- Panoramic floor-to-ceiling tinted glass
- Large resistance steps for easy access
- Integrated rear-view camera with color display

Operational Efficiency

Ergonomic Control

The loader is equipped with a pilot joystick for steering and loader control, providing high sensitivity and accuracy. The ergonomic design ensures comfortable operation during long shifts, while the integrated quick-hitch system allows operators to change hydraulic attachments in seconds without leaving the cab.
