Product Overview

Versatile 40-60 HP Wheel Tractor

This robust wheel tractor is engineered for high performance in small to medium-sized agricultural operations. Featuring a powerful engine and efficient transmission system, it provides the reliability needed for plowing, tilling, planting, and harvesting tasks. Its ergonomic design and versatile configuration options ensure optimal operator comfort and productivity across diverse farming environments.

Technical Specifications

Engine Power Output

40 hp

Minimum Power

60 hp

Maximum Power

Transmission Configurations

- 8+2 Shift Pattern
- 8+8 Shift Pattern

Operational Features

Steering Type	Hydraulic Steering
Clutch System	Dual-stage

Customization & Options

Available Upgrades	ROPS & Canopy, Flat Floor, Enclosed Cabin
